

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

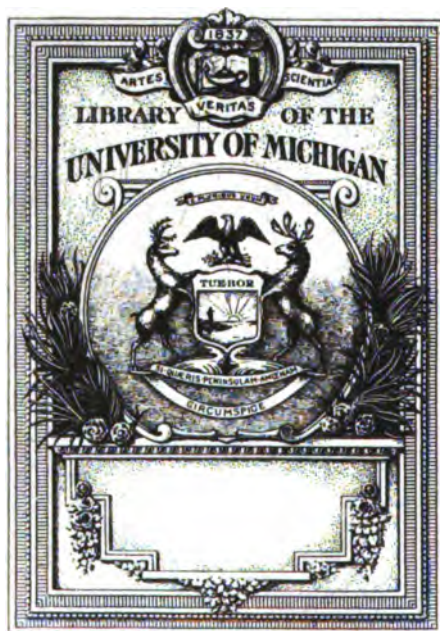

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,
TRENTON, N. J., October 31st, 1908.

To the Legislature of New Jersey:

The State Board of Assessors, in compliance with the provisions of the act of the Legislature entitled "An act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four" (which revision was approved March 27, 1888), and the various acts supplementary thereto, herewith submits its twenty-fifth annual report, which report, because of its absolutely necessary volume, is divided into two parts—Part I showing the valuation and assessment of railroad and canal property, with the statistical tables and other information relating thereto; and Part II showing the assessments levied against miscellaneous corporations organized under the laws of the State of New Jersey, and also showing the assessment and apportionment of the franchise taxes levied under provisions of Chapter 195, Laws of 1900, and supplements, upon corporations using the public streets or highways.

RAILROADS AND CANALS.

So far as concerns the assessment for the year 1908, of property used for railroad or canal purposes, such assessments have been levied against one hundred and sixteen railroad corporations and one canal company, the particulars and details of which assessments are fully set forth in Schedule A of the Appendix to this report; which said assessments also include in detail the valuations of "second-class" railroad and canal property, and the tax thereon at full local rates.

The new corporations added to the assessment list of 1908 were as follows :

Erie Terminals Railroad Company (Erie System).
Atlantic City and Ocean City Railroad Company (Unclassified).
Hudson Railroad and Transportation Company (Unclassified).

As against this apparent increase of *three* corporations was the legal dissolution of the Hibernia Underground Railroad Company, which, by reason of such dissolution, was eliminated from the assessment of 1908, thereby making a net increase of *two* corporations assessable for the year 1908.

"SECOND-CLASS" RAILROAD PROPERTY 1906 AND 1907.

Up to and inclusive of the year 1905, this Board had always been charged with the valuation and assessment of "second-class" railroad property, viz.: property "used for railroad purposes" outside of "main stem." The Legislature of 1906, by Chapter 280 of the Laws of said year, removed from the jurisdiction of the State Board of Assessors and placed in the hands of the local taxing authorities the assessment and taxation of "second-class" railroad property. The State Board of Assessors thereupon ceased to be in touch with railroad property of this class. This condition existed throughout the years 1906 and 1907. In January, 1908, the Court of Errors and Appeals, in a very able opinion delivered by Chief Justice Gummere, declared unconstitutional and void the act of 1906, placing in the hands of the local taxing authorities the assessment and taxation of "second-class" railroad property. Following this decision of the Court of Errors and Appeals, the Legislature of 1908 passed an act (Chapter 6, P. L. 1908, p. 15), placing upon this Board the duty of re-valuing and assessing the "second-class" railroad property throughout the State of New Jersey for the years 1906 and 1907, the said act further providing that wherever it was shown to the satisfaction of this Board that the local taxes upon the properties in question had been paid, the assessments levied by the State Board of Assessors for either of the years named should be cancelled.

The condition was thus presented of requiring the State Board of Assessors to ascertain, value and assess certain railroad properties as of existing conditions *January 1, 1906*, and *January 1, 1907*, respectively, such re-valuation and assessment to be made, in one case more than *two years* subsequently to the assessment date, and in the other instance more than *one year* subsequently to the assessment date. In other words, under the terms of Chapter 6, P. L. 1908, the State Board of Assessors were required to determine specifically and exactly what property of the "second class" was owned by a railroad company on January 1st of the years 1906 and 1907, together with the conditions and the values of such property on the dates named. The last previous assessment of "second-class" railroad property made by the State Board of Assessors was as of existing conditions *January 1, 1905* (being the assessment for the year 1905). Between that time and the passage of the act of 1908 there had been vast changes made in railroad properties. Railroad structures had been erected—other structures existing prior to January 1, 1905, had been removed—additional lands had been acquired and devoted to railroad purposes; certain side-tracks "outside of main stem" had been added, while others had been removed. All of these factors were required to be ascertained and applied to each of the dates mentioned (*January 1, 1906*, and *January 1, 1907*).

When it is considered that there are about five hundred taxing districts in the State, with 117 distinct railroad corporations to be assessed, the classification of "second-class" railroad property, and its distribution as between the municipalities through which the lines of the various companies extended, involved a work of considerable magnitude. In addition to this work, the Board was confronted with the duty of valuing and assessing *all* railroad property for the year 1908, so that as a result of the decision of the Court of Errors and Appeals on the act of 1906 and the consequent legislation of 1908, the State Board of Assessors was compelled practically to levy *three years'* assessments within the period of time naturally devoted to *one year's* assessment. The corrective legislation of 1908 further provided that on the reassessments for the years 1906 and 1907 the corporations assessed should have the privilege of appeal for review of said assess-

ments; and, further, that if, under the act of 1906, the taxes had been paid to the local authorities, the State Board of Assessors were authorized, upon satisfactory proof of such payment, to cancel the assessments levied by said Board. Almost every corporation assessed for the years 1906 and 1907, under the act above referred to, appealed from the assessments made by this Board. The hearings upon these appeals covered more than one month, with sittings almost daily, and involved not only the question of valuation, but the questions of proof as to the payment of the local taxes. As the result of these hearings, it was found that the taxes due from "second-class" railroad property for the year 1906, in excess of that which had been locally paid, amounted to the sum of \$899,570.44, and for the year 1907, to the sum of \$1,038,706.77—the very marked difference between the two years being attributable to the fact that the Railroad corporations in 1906 more generally paid their taxes locally than in the year 1907, because of the growing impression that the act of 1906 would be set aside by the Court of Errors and Appeals.

ASSESSMENT OF 1908.

The following is a summary of the valuation and assessment of railroad and canal property for the year 1908:

Assessed valuation of main stem and franchise,	\$172,090,500 00
Assessed valuation of tangible personal property necessary for and used in State commerce,	29,833,999 00
<hr/>	
Total assessable for State uses,	\$201,924,499 00
Assessed valuation of real estate used for railroad purposes other than main stem,	70,355,491 00
<hr/>	
Aggregate assessed valuation,	\$272,279,990 00
 Tax for State uses, at average tax rate of \$1.681 per \$100 valuation,	 \$3,394,350 79
Tax for uses of taxing districts on real estate used for railroad purposes, other than main stem, at full local rates,	1,267,181 13
<hr/>	
Total tax,	\$4,661,531 92

The *entire tax* on "second-class" property, after being collected by the State Comptroller, is remitted to the local taxing authorities in the manner provided by law.

The tax upon "main stem" (including franchise) and tangible personal property, levied at the average tax rate of \$1.681 per \$100 valuation, after retaining therefrom a sum equal to one-half of one per centum for the support of the State government, is, under existing law, applicable to the maintenance and support of free public schools.

FINANCIAL STATEMENT.

The capital stock and debt, as reported, are as follows:

Capital stock,	\$180,711,766 00
Funded debt,	221,169,126 00
Unfunded debt,	14,625,854 77
Total,	<u>\$416,506,746 77</u>

The gross earnings of all lines for the year ending December 31, 1907, were \$82,223,095.82.

Since the last annual report of this Board, the terms of office of Stephen J. Meeker and Eckard P. Budd expired, and they have been succeeded by O. C. Bogardus, of Keyport, N. J., and Charles E. Hendrickson, Jr., of Jersey City, N. J.

The customary tabular statements pertaining to the assessment of railroad and canal property for the year 1908 will be found in the Appendix to this report.

Respectfully submitted,

DAVID BAIRD, *President*;

THEODORE STRONG,

O. C. BOGARDUS,

CHARLES E. HENDRICKSON, JR.,

State Board of Assessors.

IRVINE E. MAGUIRE, *Secretary.*

APPENDIX.

(I)

SCHEDULE A

Assessments Levied by the State Board of Assessors on
Property of

Railroad and Canal Corporations

FOR TAXES OF 1908.

Pennsylvania Railroad System.

BELVIDERE DELAWARE RAILROAD COMPANY.

MEASUREMENT OF MAIN STEM FOR THE YEAR 1908.

Length of main stem in New Jersey, 79.996 miles.

LENGTH OF MAIN STEM IN TAXING DISTRICTS.

	Miles.
Mercer county, Trenton city,	3.393
Ewing township,	3.276
